

Our aim

Mulberry UTC encourages all students and staff to adopt **sustainable** and, wherever possible, **active** modes of transport to and from the UTC. We discourage travelling to the UTC by car.

Active travel includes:

- walking;
- cycling;
- scooting.

Sustainable travel includes all the above and:

- public transport such as bus, DLR, underground, train.

Benefits

Active travel:

- improves mental and physical health through physical activity;
- increases concentration and alertness.

Sustainable travel:

- establishes positive travel behaviour;
- promotes independence and improves safety awareness;
- reduces congestion, noise and pollution in the local community;
- reduces the environmental impact of journeys to school.

Click [here](#) for more information on these benefits.

Facilities

The UTC provides safe and secure cycle and scooter storage on the UTC site.

Public transport routes

Buses 8, 276 and 488 stop on Parnell Rd; buses 108 and 339 stop within easy walking distance. Bow Church (DLR), Bow Rd (District) and Mile End (Central) stations are all within 15 minutes' walk.
